

# AUDIENCE BLINDER

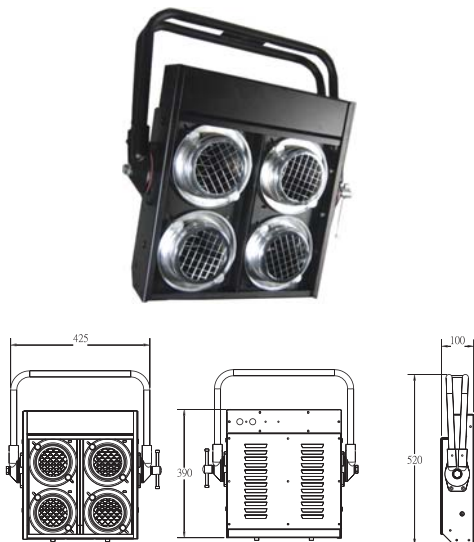

## SPOTBANK

The audience blinders have been designed for Par 36 ACL 28V 250W or DWE 120V 650W lamps. The unit consist of a sturdy, black anodized aluminum case with a strong, adjustable bracket. The rear plate with louver for better ventilation and keeping lamp life longer. The heavy duty yoke with positive lock off and T bar enable this unit to be set at any angle. Each bank can be adjusted independently. Suitable for all major brands of color changers. All standard PAR-36 spotbanks are delivered unwired without light sources. Both PAR 64 and MR 16 are delivered prewired wihout light sources. Please specify on order when wiring service is required.

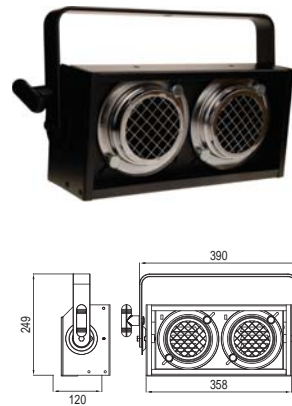

1. Suitable for all major brands of color changer
2. Excellent ventilation with louver at rear plate
3. Rear plate is screwed, easily and friendly to be opened for setting lamps
4. Locking plate for optional horizontal yoke use
5. T-Bar enable the unit to be set at any angle while needed

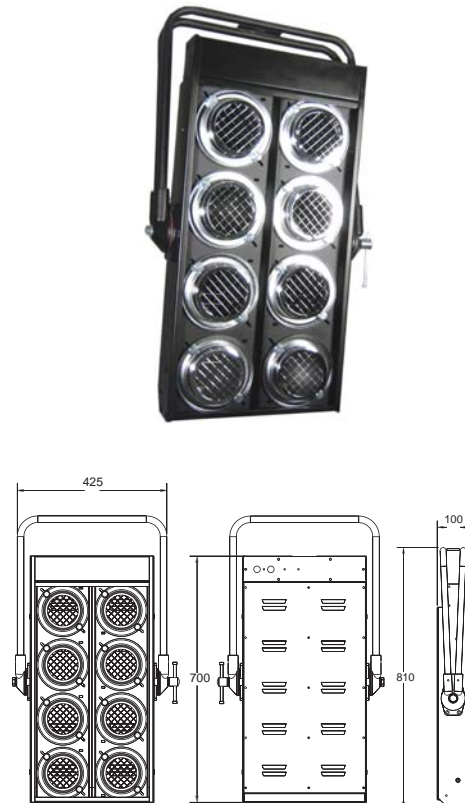

### SB-364 PAR36 4Lite blinder unwired

## SB-369D

### Duo Blinder

An unique combination of two effects, blinder and strobe, in one fixture. This special and fascinating luminaire is designed to merge with 3000W DMX strobe, by removing the central row of convention 9-lite blinder and affixing an unique bracket for 3000W DMX strobe easily joint together. Adding up with a color scroller, this luminaire turns to deliver impressive and powerful effect and leaves the event unforgettable. The design is working perfectly with Martin Atomic 3000W DMX strobe and major brands of 9-lite color scroller.

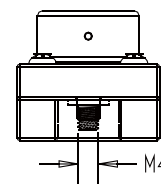

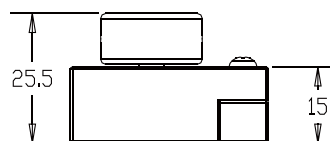

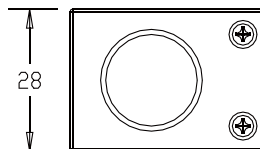

\* DMX 3000W strobe is optional, not included in SB-369D as standard package.

\* SB-369D is unwired while supplied.

## TS-36 Tofu (Terminal Safe)

Tofu (Terminal Safe) is made for giving protection from electric shock over the lamp of screw terminal type such as PAR-36, PAR-46 and PAR-64 (GE 4552) lamp. Ceramic finish provides better heat resistance and electrical isolation. Tool-free mechanical design leaves lamp maintenance easily. Order number for this fabulous gadget is TS-36 (without wiring)
