

# XENON FOLLOWSPOT

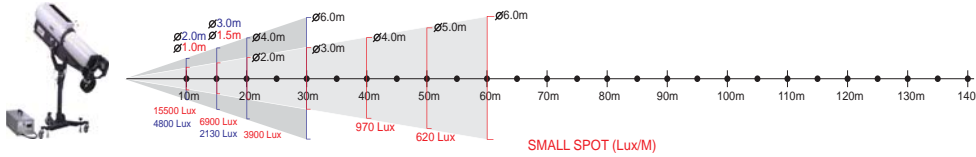

## FOLLOWSPOT

Ideal for many stages and venues, Xenon Followspot features quick trigger and play. The cold mirror reflector makes heat pass behind and gives high visible light forward. Three cooling fans helps to provide better ventilation. Four rear knobs are designed for easier adjustment of lamp position. The entire set includes a ballast, stand, lamp and fixture it self. Kupo supports full range of 1000, 2000, 3000 and 4000W Xenon Followspots. High quality engineering, blending ruggedness with a compact lightweight design, gives precise fingertip control of one of the world's most manoeuvrable and powerful Xenon Followspots.

### KXS-1000W

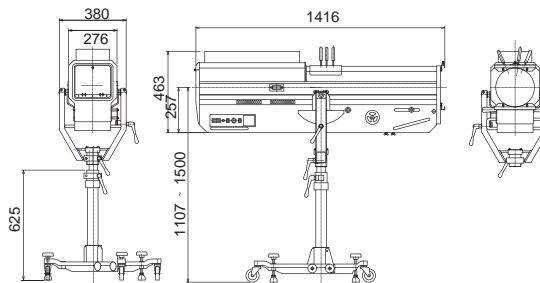

- ✓ 1KW followspot
- ✓ weight: 34kg
- ✓ color changer: 3kg
- ✓ stand: 33kg
- ✓ ballast: 25kg
- ✓ lamp: Xenon 1000W

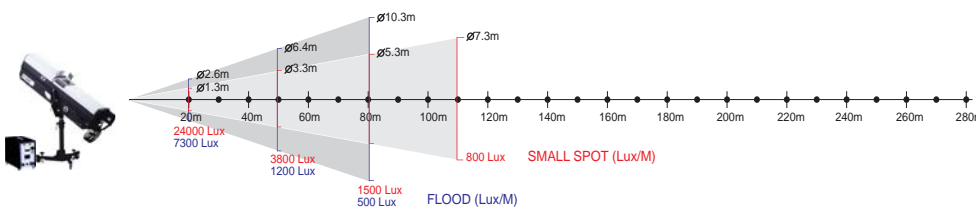

The data are based on light distribution characteristic (light intensity ration between centre and edge of 30%~35%.)

### KXS-2000W

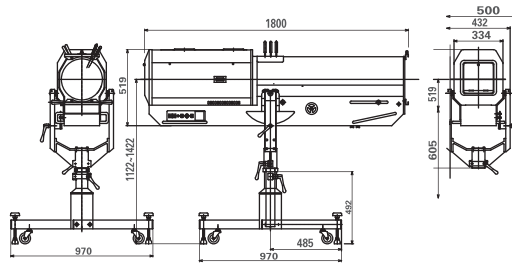

- ✓ 2KW followspot
- ✓ weight: 50Kg
- ✓ color changer: 4kg
- ✓ stand: 33kg
- ✓ ballast: 25kg
- ✓ lamp: Xenon 2000W

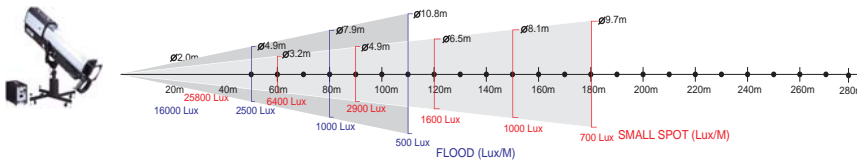

The data are based on light distribution characteristic (light intensity ration between centre and edge) of 30%~35%.)

## XS-3000W

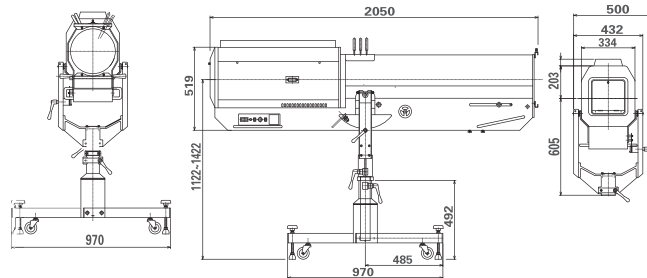

- ✓ 3KW followspot
- ✓ weight: 70kg
- ✓ color changer: 4.5kg
- ✓ stand: 35kg
- ✓ ballast: 25kg
- ✓ lamp: Xenon 3000W

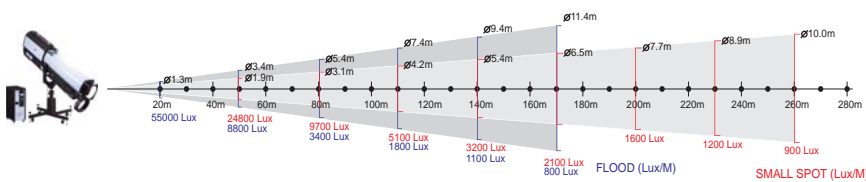

The data are based on light distribution characteristic (light intensity ratio between centre and edge of 30%~35%.)

## XS-4000W

- ✓ 4KW followspot
- ✓ weight: 85Kg
- ✓ color changer: 5kg
- ✓ stand: 35kg
- ✓ ballast: 30.5kg
- ✓ lamp: Xenon 4000W

The data are based on light distribution characteristic (light intensity ratio between centre and edge) of 30%~35%.)
