

PARCAN

PARCAN

The classic and functional form of ParCans has been established in the Rock'n'Roll world. Kupo offers a wide range of ParCans, that are different in sizes (64, 56, 46, 30, 20, 16) and nose (short/long), bracket form, thickness of the material and socket implementation, color (black & polish) etc. Kupo ParCan is manufactured from high quality spun aluminum.

The standard type of Kupo ParCan is:

1. made from 1.5mm thick aluminum
2. supplied with an octagonal or square color frame
3. 4th hinge spring clip
4. yoke lock washer
5. safety wire
6. 32mm wide yoke
7. cable gland
8. rolled lip on focus hole
9. TUV/UL version is available when specified on the order
