

PROFESSIONAL COUPLER

COUPLER

Lightweight & low profile KUPO professional couplers are constructed from high tensile aluminum extrusion and have been developed for installations where load capacities of up to 500kg are required. The KUPO professional coupler combines strength and durability with a high degree of safety. The couplers are designed to fit tubes with diameters between 48mm-51mm. The half coupler has been tested and certified with TUV approval for a safe working load of 500kg. The standard finish is polished. Custom color or logo is upon request.

**Kupo half type coupler (KCP-831)
is approved by TUV Product Service
listed with a safety working load at 500kg**

**"CAPTIVE", on
top of thread bolt to
avoid wing nut falling off
the clamp in the air**

**Constructed from a
high tensile-strength
6061 aluminum-extrusion**

**Attach securely to
tubes with outside
Dia.48-51mm**

**Standard in polish
finished. Black is
available to specify
order**

**Designed for safe
connection in
trussing system**
