

KU-HAND

KU-HAND is designed for multi-use to protect users. Its applications could be rigging, staging, grip, installation. The ergonomic design brings comfort and fit for everyone. Plenty of unbelievable features favor all users. Leather top is excellent on ventilation with padded mesh. Also, the two-way stretch of leather top creates flexibility. Synthetic leather palm is soft and durable, and also has extra layer leather for better protection. The extra layer leather not only on leather palm but also on index finger and thumb for extra strength. Moreover, smooth surface of fingers and reinforced fingertips make perfect on handling objects and reduce wear. To conclude, KU-HAND is your best partner that you cannot miss to achieve any kind of job.
